

Abstract Submission open for the XVI International Symposium on Aquaculture Nutrition (SINA)

Aquaculture Professionals are invited to submit research papers in the XVI SINA. Abstracts will be presented in e-poster format. Abstracts must consist of original and completed research, which have not been accepted yet for publication in Journals. Prospective authors are invited to submit research reports to expand the presentation of the material, facilitate the discussion of research results among SINA attendees, diversify the format of the meeting, and accommodate a greater number of abstracts. The program of the XVI SINA will be streamed via Zoom from March 29 to April 1 and will remain online until April 30 for registered attendees.

ABSTRACT SUBMISSION: Electronic submission of abstracts is the only method of submission. Abstracts must be submitted by February 28, 2022. Abstracts not meeting this deadline will not be accepted. Instructions for submitting abstracts are available on the website <https://sina.aena.mx/images/Guideforabstracts-2.pdf>

After the deadline, it will not be possible to submit or edit abstracts. You will be assigned a tracking number and password when submitting the abstract. It is very important that you keep a record of this information. Do not submit the same abstract more than once.
